

SHOPALIX CD

Shopalix is a comprehensive and user-friendly database management website designed specifically for the employees of our online shopping store. It serves as a centralised platform where employees can efficiently access and update critical information regarding customers, ordered articles, and shipments. This secure platform allows authorised personnel to retrieve detailed customer profiles, track orders, manage inventory, and monitor the status of shipments. With its intuitive interface, employees can seamlessly add, edit, or remove data, ensuring that the information remains up-to-date and accurate.
